- Shaping, luring, modeling, capturing, targeting, chaining - what's it all mean? When to do what and how.
- Taking trained behaviors to heights you never imagined.
- Getting reliable responses
- Fast

- Accurate
- Reliable - anywhere & everywhere

- And much more!

Everything you ever wanted to know about dogs.

All about the factors that influence a dog's ability to learn and perform, and how to work with them or around them. Here are just a few of the factors:

- Temperament & assessing temperament - working with shy, timid, and aggressive issues, as well as bold, outgoing dogs
  - Critical periods of psychological development - when to do what
  - Breeds (and mixes) & breed influences - working with instincts
  - Diet, nutrition, health & structure - They all influence learning and behavior, and you can maximize both the dog's and trainer's success
  - Body language & communication - reading the dog, communicating through body language, and eliminating stress
  - Socialization and raising puppies - what to introduce, how and when for the best dog possible.
- Eliminating undesirable & problem behavior
- Starting with typical problems encountered in classes, each unit builds the knowledge and skills of the trainer to deal with behavior problems.
- Dealing with "typical" issues
  - Assessing and dealing with persistent behavior problems
  - Interview skills, techniques & procedures

- Our 4-prong approach
